What to bring to the TB sputum test

1. Valid passport and 2 copies of the passport
2. Original ID and 2 copies of the ID card
3. The letter from referral hospital

Service fees

Age group	Fees in THB
Diagnostic sputum tests for Tuberculosis, series of 3 specimens (smear, culture, identification, DST)	6,000
Follow up on TB treatment, series of 2 specimens*	4,000

*Follow up on treatment requires, on average 3 to 4 series

Payment should be made at the IOM office by cash

Laboratory testing

Sputum will be collected in the morning hours for three consecutive days. In addition to sputum smears sputum cultures will be done. The testing with sputum culture may takes up to 9(nine) weeks. In a very small proportion of cases, where the sputum culture becomes contaminated, this process may take longer.

International Organization for Migration (IOM)
The UN Migration Agency

Result

IOM will send the results of tests to the physician of referral hospital.
